THE HIMALAYA

OUR ORIGIN

From the Roof of the World

High on the southern slopes of the Himalaya, above two and a half thousand metres, our gardens grow slowly in thin, clean air. Every leaf is certified organic, picked by hand, and finished at our own factory — then shipped directly to you.

No middlemen. No warehouses. Only the mountain, the leaf, and the people who tend both.

SUSTAINABILITY

Grown With Conscience

01 Sustainable Farming

Organic cultivation in living soil — no synthetic inputs, ever. Shade trees, compost and patience keep the high gardens fertile for the next hundred years.

02 Happy Farmers

Our growers are partners, not suppliers. Fair pay, long-term contracts and shared harvest premiums mean the people who pick your tea prosper alongside it.

03 Direct From Factory

Leaf is withered, rolled and fired at our own facility, then shipped straight to your door in eight to ten weeks. No middlemen — quality and value travel intact.

SEASONS

The Four Flushes

The garden is picked four times a year, and each flush carries its own character — and its own price. The rainy flush is the reference; the first flush of spring is the year's most prized.

FLUSH	SEASON	CHARACTER	PRICE INDEX
FIRST FLUSH	MAR – APR	<i>The year's most prized picking — brisk, aromatic</i>	× 1.08
SECOND FLUSH	MAY – JUN	<i>Fuller body, deeper colour</i>	× 1.02
RAINY FLUSH	JUL – AUG	<i>Generous yield — the reference price</i>	× 1.00
AUTUMN FLUSH	SEP – OCT	<i>Mellow and rounded; late-season grace</i>	× 1.01

All prices are quoted per kilogram in Pound Sterling (£), wholesale, ex-factory. The rainy flush is the base price; seasonal indices apply as shown. Delivery 8 – 10 weeks from confirmed order, direct from our factory.

N° 01

BLACK TEA

Light & Bright

FLORAL · BRIGHT · GOLDEN CUP

A black tea of unusual restraint. Oxidised only partially, it keeps the brightness of the high spring garden — a golden cup with a floral lift and a clean, luminous finish that lingers like morning light on the ridge.

MANUFACTURE

- 01** PLUCKING

Two leaves and a bud, taken by hand
- 02** WITHERING

12 – 14 hours on bamboo trays
- 03** ROLLING

Gentle, bruising the leaf only lightly
- 04** OXIDATION

Arrested early, at 20 – 30 percent
- 05** FIRING

Low and slow, locking in brightness

SPECIFICATION

N° 02

BLACK TEA

Full Oxidized

MALTY · DEEP AMBER · ROBUST

Fully oxidised in the classical manner — the estate's most assertive cup. Malty and deep amber, with the warmth of toasted grain and a quiet sweetness that rewards a long, unhurried steep.

MANUFACTURE

01 PLUCKING
Two leaves and a bud, taken by hand

02 WITHERING
14 – 16 hours, until supple

03 ROLLING
Full pressure, releasing the leaf

04 OXIDATION
Carried through, 90 – 100 percent

05 FIRING & SORTING
Fired deep, then graded by hand

N° 03

GREEN TEA

Mountain Green

FRESH · VEGETAL · CRISP

Pan-fired within hours of plucking, the leaf never oxidises. What reaches the cup is the mountain itself—fresh, vegetal, crisp as thin air, with a sweetness drawn slowly from leaves grown above the cloud line.

MANUFACTURE

- 01

PLUCKING

Dawn harvest, in the cool hours
- 02

N° 04

WHITE TEA

Silver White

DELICATE · SILVER BUDS · ETHEREAL

Only the unopened silver bud is taken, then shade-withered for two to three days and never rolled. The result is ethereal — a pale, silken infusion of extraordinary delicacy; the rarest expression of the garden.

MANUFACTURE

- 01

BUD SELECTION

Silver buds only, nothing else
- 02

N° 06

SPECIALTY

Ruby Red

FRUIT-FORWARD · DEEP RED · OPULENT

Our specialty leaf, oxidised to the very edge for a liquor of deep garnet red. Fruit-forward and opulent — dark cherry, a long velvet finish — made in small lots only, when the season allows.

MANUFACTURE

- 01** PLUCKING
Mature leaf, chosen for depth
- 02** WITHERING
Extended, deepening the leaf
- 03** HEAVY ROLLING
Worked hard, freeing full character
- 04** OXIDATION
